Military Service

Branch: United States Army

Service Country: United States

Rank: Specialist

June 2017 to January 2022

My job title was Air Defense Battle Management Systems Operator. I surveyed air tracks from radar to verify clear air space.

Provided protection to warfighting personnel and high-value assets detecting rockets, artillery, mortars, and interception of rounds in flight.

Controlled the operation and maintenance of a \$5.56 million Land Based Phalanx Weapon System. Trained on implementation of an early warning system to warn military and civilian personnel of incoming rockets, artillery, and mortars for my combat deployment to Iraq for Operation Inherent Resolve.
